GRADUATE COLLEGE OF ARTS AND SCIENCES

Overview
Graduate programs within the College of Arts and Sciences are at the heart of the mission of Saint Joseph’s University, and reflect the expansive nature of our educational philosophy. We offer master’s degrees, certificates, and non-degree programs to help students achieve academic growth and personal advancement.

Web and Database Technologies Certificate

4 + 1 Programs in the College of Arts and Sciences
For Admission Procedures click here (https://www.sju.edu/admission/graduate-business/)

In this competitive work environment, having a master’s degree can lead to higher-level positions, more responsibility and greater earning potential.

The 4+1 Program allows students to complete both a bachelor’s and a master’s degree in five years. Students share a certain number of credit hours between their undergraduate and graduate degrees.

Here’s how the 4+1 program works:
• Apply to the graduate program in your Junior or Senior Year – Here is the link to Apply (https://admission.sju.edu/apply/?pk=GR)
• The Graduate & Extended Studies Office will request your official transcript and your application fee will be waived.
• Work with your advisor to begin enrolling in graduate courses during your junior or senior year
• Earn your undergraduate degree and your M.A. or M.S. in just 4+1 years
• Graduate classes may be done on campus or online (varies by program)
• Enjoy the 10% Alumni tuition discount upon receiving your Bachelor’s Degree
• Merit Scholarships are available
• 4+1 offerings vary by program. Contact the Graduate Program Director (https://sites.sju.edu/gradpsadvising/grad-advising/) of your interested program during the first semester of your Junior year to determine eligibility.

SJU undergraduate students are eligible to apply for select M.S. and M.A. degrees as part of our 4+1 Program.
