

SCHOOL COUNSELING M.S.

The School Counseling graduate degree program prepares students to apply instructional and school counseling interventions through the use of data informed strategies to promote student learning outcomes. Students will design, implement, and assess comprehensive school counseling programs in PK12 schools. The proposed School Counseling degree program meets or exceeds PDE requirements for certification as a school counselor. Students obtain 700 hours of clinical experience through supervised practicum and internship experiences in PK12 schools.

Learning Goals and Outcomes

Goal 1: Students demonstrate knowledge and skills foundational to the school counseling profession.

Goal 2: Students demonstrate knowledge and skills specific to school settings.

Goal 3: Students make professional and ethical decisions using evidence based judgement.

Goal 4: Students demonstrate the disposition that is suitable to professional school counseling by developing knowledge, practicing reflection, and seeking growth in the conceptualization of self and students.

Goal 5: Students are advocates for the academic, personal, social, and career development of their students.

Goal 6: Students develop skills and techniques relevant for practice as professional school counselors.
